

Keynote Speaker:

Prof. Kah-Whye Peng, Ph.D
Mayo Clinic

SNMMI 2016 Breakfast Seminar

Dr. Peng is Professor of Oncology and Director of the Pharmacology and Toxicology Laboratory in the Department of Molecular Medicine at Mayo Clinic. She is a Council Member of the International Society of Cell and

Gene Therapy and serves on grant review panels of the National Institutes of Health.

She obtained her BSc (First Class Honors) degree in Zoology from the National University of Singapore and her PhD degree from the University of Cambridge, England.

Dr. Peng moved to Mayo Clinic in 1998 and worked closely with Dr. S. Russell to design, equip and staff the research laboratories and translational infrastructure which subsequently became the Department of Molecular Medicine. Her research focus is the development of new technologies that can be applied for targeting, monitoring and enhancing the potency of novel cell, gene and virus-based anticancer therapies, and to advance the most promising technologies to clinical testing.

Together with Dr. Stephen Russell, she founded Imanis Life Sciences to facilitate the widespread adoption and routine use of non-invasive NIS imaging for preclinical and clinical applications.

Tuesday, June 14, 2016

6:45 a.m. Walk in and Welcome

7:00 a.m. Start Event

8:00 a.m. End Event

Breakfast will be served

Conference Room 26A

Directions:

Program:

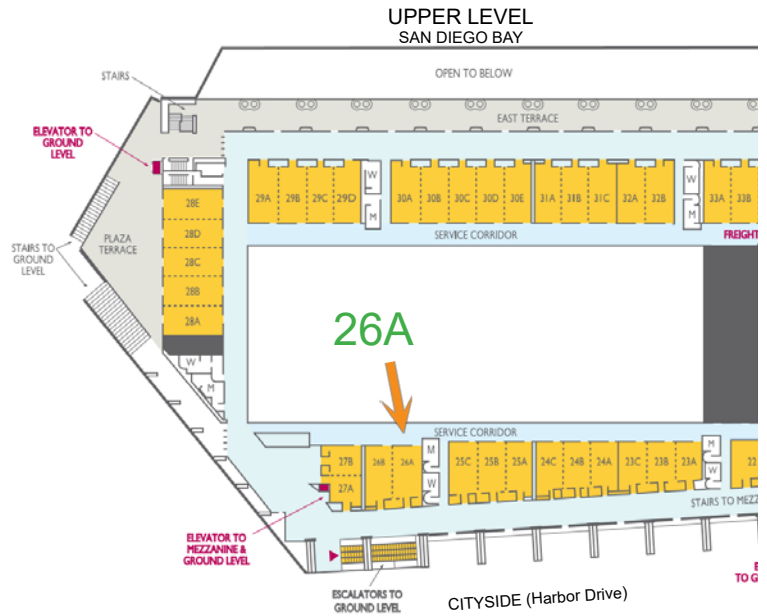

- 06:45 Walk in and Welcome**

- 07:00 MILabs' PET - SPECT - Optical - CT
New product update, including
Game-changing Clinical SPECT**
Prof. Freek Beekman Ph.D.
Professor of Radiation & Medical
Imaging, TU Delft, The Netherlands.
Founder and CEO/CSO MILabs

- 07:20 High resolution imaging using NIS
reporter gene and microPET/SPECT/CT**
Prof. Kah-Whye Peng, Ph.D
Professor of Oncology, Mayo Clinic
Co-founder Imanis Life Sciences,
Rochester, MN, USA

- 07:45 Highlights lecture and
MILabs Image of the Year**
Prof. Freek Beekman Ph.D.
Professor of Radiation & Medical
Imaging, TU Delft, The Netherlands.
Founder and CEO/CSO MILabs
