

MILabs is a young, fast growing and highly innovative player in the molecular and medical imaging industry, headquartered at the Science park Utrecht, the Netherlands. With state-of-the-art technologies in PET, SPECT, Optical imaging and X-Ray CT, MILabs competes with the largest biomedical device suppliers in the world. MILabs is recognized as a highly valued imaging technology provider for world leading universities, academic hospitals, CRO's and pharmaceutical companies.

Our team of employees and collaborators includes many of the leading innovators in in-vivo molecular and medical imaging systems. Our culture celebrates diversity and entrepreneurialism, and prizes the unique contribution of each employee. Primarily for our installed base in the Americas, we are now looking for an

International Service Engineer Americas

After a thorough preparation and training period you will be responsible for the on-site installation, maintenance and service of our imaging systems. We offer a unique and dynamic environment: you have the chance to contribute to the expansion of our cutting-edge technology throughout the research community. The current stage and fast expansion of the company will provide personal growth opportunities. The working climate at MILabs is informal and internationally oriented.

Tasks & Responsibilities

- Install, calibrate and service MILabs imaging systems at customer sites in the Americas region and occasionally throughout the rest of the world
- Act as contact person by mail and phone for customers with service requests
- Document and report service calls and provide input for continuous improvement of our service level and product development

Background

- Relevant experience in Mechanical and/or Electronics Engineering
- Several years of working experience in international service
- Knowledge of Imaging Technologies and instrumentation preferably (X-RAY, PET, SPECT or CT)
- Excellent communication skills, customer focus, you are a hands-on creative problem solver and you have a flexible attitude
- Motivated, result oriented and self-driven
- Willingness to travel world wide for periods typically four to eight working days
- Inhabitant of the United States.

Remuneration

- Competitive remuneration, including bonus and pension scheme.
